OF KENTUCKY
EFFECTIVE

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: Stephan O. Bell
SECRETARY OF THE COMMISSION

A3. BASIC LOCAL EXCHANGE SERVICE

A3.1 General

- A. Rates for Basic Local Exchange Service are related to the total number of main station lines (including Centrex Type Services main station lines, except as provided following,) and PBX trunks (including trunks providing Service to U. S. Government-owned systems serving certified military bases) in the Limited Local Calling Area.
- B. Local Exchange Service, Exchange Service Areas, and Local Calling Areas for each exchange are set out in this Tariff. (C)
- C. The rates for service and equipment not specifically shown in this section are presented in other sections of this Tariff.
- D. Individual (Ind.) and two-party (2-Pty.) line Residence and Business Main Station Line Service are comprised of serving central office line equipment and outside plant facilities needed to connect the serving central office with the customer premises at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for Message Toll Service and for local calling.
- E. Measured Rate Main Station Line or Trunk Service is available only to those customers subscribing to the service on January 19, 1984, or who had ordered the service by that date for later installation. The service will remain available to those subscribers only in those central offices which were furnishing the service on January 19, 1984.
- F. Pursuant to KPSC Administrative Case No. 333, a monthly surcharge shall be imposed on all local exchange access lines, MultiServ service lines and MultiServ PLUS service lines or in the case of ESSX service and Centrex service, per Network Access Register (NAR). For purposes of application of this surcharge, access lines are defined as facilities which provide access to and from the telecommunications network for toll service and for local calling with the exception of Public Coin, WATS, Remote Call Forwarding, Radio Common Carriers, InterLATA Foreign Exchange Lines, Private Line Services, Mobile, Other Common Carriers, and Company Official Accounts. The Commission has determined in KPSC Administrative Case No. 372, Order dated May 31, 2006, that the amount of the surcharge will be \$.07 per access line; however, this amount is subject to change by the Commission to meet the needs of providing Telecommunications Relay Service for the hearing and/or speech impaired persons in Kentucky.
- Pursuant to KPSC Administrative Case No. 372, Order dated May 31, 2006, the Telecommunications Devices for the Deaf (TDD) distribution program shall be renamed Telecommunications Access Program (TAP) and shall be funded by a monthly surcharge of \$.02 per access line beginning with bills rendered after July 1, 2006 and continuing until June 30, 2008. This surcharge will revert to \$.01 monthly for bills rendered after June 30, 2008. As of December 1, 1999, the surcharge was combined with the Telecommunications Relay Service surcharge. The resulting combined surcharge (\$.09 per access line from July 1, 2006 until June 30, 2008, converting to \$.08 per access line beginning on July 1, 2008) shall appear as a separate line item on the customer's bill and shall read "TRS/TAP Surcharge."
- G. Effective July 10, 1993 two-party (2-Pty) line service is being obsoleted. This service will not be offered for new installations or transfers of service to a new location.
- Effective January 24, 1994, the Company will begin a program to upgrade two-party customers to individual line service. Customers will be notified prior to their service being changed. When upgraded, residential customers will be allowed to continue paying two-party zone charges (see Section A103.) until one of the following occurs: transfer of service to new location; additional line(s) added; or requested relocation of Company facilities.
- H. Effective April 14, 1997, rotary dial service will not be available for new installations for residence subscribers. For existing residence subscribers with rotary dial service, a credit of \$1.00 will apply to the rates specified in A3.2.1, A3.2.3, A3.2.8, A3.7, A103.2 and A103.7. Existing rotary dial service may be modified or changed at the current location (with the exception of a change in class of service), but may not be relocated to a different address. Existing subscribers with rotary dial service who change to a different class of service and subscribers who connect new lines after April 13, 1997, will be billed at the rates specified in A3.2.1, A3.2.3, A3.2.8, A3.7, A103.2 and A103.7.
- I. Pursuant to KPSC Administrative Case No. 360, a monthly Intrastate Universal Service Surcharge shall be imposed on all local exchange access lines, MultiServ service lines and MultiServ PLUS service lines or in the case of ESSX service and Centrex service, per Network Access Register (NAR). For purposes of application of this surcharge, access lines are defined as facilities which provide access to and from the telecommunications network for toll service and for local calling with the exception of WATS, Remote Call Forwarding, Radio Common Carriers, InterLATA Foreign Exchange Lines, Private Line Services, Mobile, Interexchange Carriers, and Company Official Accounts. The Commission has determined in KPSC Administrative Case No. 360, Order dated June 3, 2004, that the amount of the surcharge will be \$.08 per access line; however, this amount is subject to change by the Commission to meet the needs of the Universal Service Fund in Kentucky. The surcharge shall appear as a separate line item on the customer's bill.

A3. BASIC LOCAL EXCHANGE SERVICE

A3.7.4 Measured Rate Service (Cont'd)

B. (Cont'd)

When a customer subscribes to more than one measured rate line on the same premises and the lines are group billed on the same service account, the local usage charges on all such lines are combined. If usage allowances are applicable, they are also combined to determine the amount of charges for usage in excess of such allowances. Usage charges and/or usage allowances shall not be combined for measured rate lines structured on separate service accounts, even though one account might be "billed to" another account for the purpose of rendering one bill to the subscriber.

In locations where Measured Rate Individual Line Service is available, it will replace the current Individual Line Message Rate Service. Existing Individual Line Message Rate subscribers will have the choice of converting to either Flat or Measured Rate Service.

SECTION 9 (1)

BY Charles L. Edmon
EXECUTIVE DIRECTOR

A3. BASIC LOCAL EXCHANGE SERVICE

A3.31 Lifeline

A3.31.1 Description of Service

- A. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket 97-157, which adopts the Federal-State Joint Board's recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996. Specific terms and conditions are as prescribed by the Kentucky Public Service Commission and are as set forth in this tariff.
- B. Lifeline is supported by the federal universal service support mechanism.
- C. Federal baseline support of \$8.25 is available for each Lifeline service and is passed through to the subscriber. An additional \$3.50 credit is provided by the Company. Supplemental federal support of \$1.75, matching one half of the Company contribution, will also be passed along to the Lifeline subscriber. The total Lifeline credit available to an eligible customer in Kentucky is \$13.50. The amount of credit will not exceed the charge for local service, which includes the access line, the Subscriber Line Charge and local usage.

A3.31.2 Regulations

A. General

1. Customers eligible under the Lifeline program are also eligible for connection assistance under the Link-Up program.
2. One low income credit is available per household and is applicable to the primary residential connection only. The named subscriber must be a current recipient of any of the low income assistance programs identified in I. following.
3. A Lifeline customer may subscribe to any local service offering available to other residence customers. Since the Lifeline credit is applicable to the primary residential connection only, it may not be applied to a multiple line package local service offering.
4. Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.
5. The deposit requirement is not applicable to a Lifeline customer who subscribes to toll blocking. If a Lifeline customer removes toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.
6. Lifeline service is exempt from the Installment Billing Service Fee.
7. The Federal Universal Service Charge will not be billed to Lifeline customers.
8. A Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local calls in accordance with Section A2. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.
9. The non-discounted federal Lifeline credit amount will be passed along to resellers ordering local service at the prescribed resale discount from this Tariff, for their eligible end users. Any additional credit to the end user will be the responsibility of the reseller. Eligible carriers, as defined by the FCC, are required to establish their own Lifeline programs.

B. Eligibility

1. To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following low income assistance programs.
 - a. Supplemental Security Income (SSI)
 - b. Food Stamps
 - c. Medicaid
 - d. Federal public housing/Section 8
 - e. Low Income Home Energy Assistance Program (LIHEAP)
 - f. Temporary Assistance to Needy Families (TANF)
 - g. National School Lunch's free lunch program (NSL)
2. All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.

A3. BASIC LOCAL EXCHANGE SERVICE

A3.31 Lifeline (Cont'd)

A3.31.2 Regulations (Cont'd)

C. Certification

1. Proof of eligibility in any of the qualifying low income assistance programs should be provided to the Company at the time of application for service. The Lifeline credit will not be established until proof of eligibility has been received by the Company. If the customer requests installation prior to the Company's receipt of proof of eligibility, the requested service will be provided without the Lifeline credit. When eligibility documentation is provided subsequent to installation, the Lifeline credit will be provided on a going forward basis.
2. The Company reserves the right to periodically audit its records, working in conjunction with the appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal laws. The use or disclosure of information concerning enrollees will be limited to purposes directly connected with the administration of the Lifeline plan.
3. When a customer is determined to be ineligible as a result of an audit, the Company will contact the customer. If the customer cannot provide eligibility documentation, the Lifeline credit will be discontinued.
4. Resellers providing Lifeline service from this tariff are responsible for determining proof of eligibility prior to requesting the service. As set forth in 47 C.F.R. § 417(a) and (b), a reseller must provide a certification, upon request, to BellSouth that it is complying with all FCC and applicable State requirements governing Lifeline/Link-Up programs, including certification and verification procedures. Resellers are required to retain the required documentation for three (3) years and be able to produce the documentation to the Commission or its Administrator to demonstrate that they are providing discounted services only to qualified low-income customers as outlined in B.1. and B.2. preceding. Disclosure requirements described in 2. preceding are applicable to resellers of Lifeline service. (N)

A3.31.3 Rates and Charges

A. General

1. Lifeline is provided as a monthly credit on the eligible residential subscriber's access line bill for local service.
2. Service Charges in Section A4. are applicable for installing or changing Lifeline service.
3. Link-Up connection assistance in Section A4. may be available for installing or relocating Lifeline service.
4. The Secondary Service Charge in Section A4. is not applicable when existing service is converted intact to Lifeline service.

A3.43.1 Plan Descriptions

A. BellSouth® Business Plus® Service

1. BellSouth® Business Plus® service is offered as a business individual line service where facilities and equipment are available.
2. BellSouth® Business Plus® service allows the business customer to choose between two LATA-wide¹ calling options:
 - a. Option 1 - Flat rated plan which allows for unlimited calling within the LATA (subject to a total usage allowance of 120 hours/7,200 minutes).
 - b. Option 2 - Combination rated plan which provides for unlimited usage within the limited local calling area for a flat monthly charge, and a single rate for each minute of use for all other calling within the LATA.
3. The option chosen by the BellSouth® Business Plus® service subscribers will apply to each of their lines.
4. Touch-Tone Calling service is provided to all BellSouth® Business Plus® service subscribers at no additional charge.
5. Customers may subscribe to either the standalone BellSouth® Business Plus® service offering or to the BellSouth® Business Choice® Package (See A103.44) which includes a BellSouth® Business Plus® service line or to the BellSouth® Complete Choice® for Business package (See A3.45) which includes a BellSouth® Business Plus® service line. If BellSouth® Business Plus® service is subscribed to, the rates of A3.43.2 are applicable. If BellSouth® Business Choice® Package or BellSouth® Complete Choice® for Business package is subscribed to, the rates of A103.44.2 or A3.45.2, respectively, are applicable. All of the rules, regulations and limitations specified for each offering will apply to the respective services and features.
6. Usage rating is dependent upon the underlying service of the originating call location. When BellSouth® Business Plus® service usage charges as described in 2. preceding are applicable, they will also apply to 1+, 0+ and 0- calls made within the LATA. However, for 0+ and 0- calls, usage does not contribute toward the Option 1 usage threshold and each minute of use is rated. The appropriate operator services surcharges will also be charged in accordance with the rules and regulations of A.3.14 of this Tariff.
7. BellSouth® Business Plus® service Option 2 customers only may subscribe to Local Usage Detail for billable usage. There is no charge for the Local Usage Detail.
8. Method of Determining Monthly Usage Charges
 - a. Usage is determined for each call based on minutes or fraction thereof, with a minimum call duration of one minute. This value is then multiplied by the rate per minute for the rate option selected by the customer. The resultant amount is truncated to whole cents for each call. The amount of usage billed to the customer is subject to b. and c. following.
 - b. For Option 1, only usage above the first 120 hours (7,200 minutes) of usage allowance is billed to the customer.
 - c. For Option 2, only usage outside the Limited Local Calling Area is subject to the billing as described in a. preceding.
